

## **City of Emporia Economic Development Authority Business, Professional, and Occupational License (BPOL) Grant**

### **Background and Purpose:**

The Business, Professional, and Occupational License (BPOL) Grant Program is an initiative of the City of Emporia and Emporia Economic Development Authority (EDA) aimed at assisting new businesses within the Enterprise Zone (EZ) area.

### **Guidelines:**

- Grants will be made to new businesses based on the net increase in BPOL tax paid over the initial base year for the first 5 years of eligibility according to the following schedule:
  - Year 1 = 50%
  - Year 2 = 50%
  - Year 3 = 50%
  - Year 4 = 50%
  - Year 5 = 50%
- “Initial base year” is defined as the tax year prior to a new business locating to the City and subject to BPOL tax.
- “New businesses” are defined as those businesses that have never previously had a business presence within the corporate limits of Emporia nor have had a business license issued by the City of Emporia. An individual or individuals who previously operated a business within the corporate limits of Emporia and were issued a City business license under a different business name are excluded from receiving grant funds, unless the new business formed is substantially different (goods sold, services provided, etc.) than the business that previously existed.
- Applicant and property owner must be current on all taxes and fees owed to the City.
- No minimum investment or job creation is required.
- City staff has the authority to interpret guidelines and impose additional conditions as deemed necessary.
